

BaseCamp Screenshots:

The screenshot shows the BaseCamp dashboard for the "EventFlow - Event Management System" project. At the top, there's a message board with three items: "Untitled" (a note from BE about assignment requirements), "Project Charter" (from BE, stating they've seen the updated charter), and "Updated Project Charter" (from WP, stating they've completed updating it). Below the message board is a "To-dos" section containing tasks for the "Define Phase" (Oct 17-Oct 31) and "Planning Phase" (Oct 31-Nov 14). The "Define Phase" tasks include "Confirm functional scope" (due Oct 20), "Finalize user stories" (due Oct 22), "Identify risks & constraints" (due Oct 23), "Review assumptions" (due Oct 24), and "Define MVP scope" (due Oct 28). The "Planning Phase" task is a single item: "...". To the right of the "To-dos" is a "Docs & Files" section featuring a document icon labeled "Event Management System...". Below these sections are "Chat" and "Schedule" modules. The "Chat" module has a teal speech bubble icon and a note: "Chat casually with your team, ask questions, and share news without ceremony." It includes a "Start chatting" button. The "Schedule" module shows two columns: "WED, NOV 19" with "Frontend: main dashboard UI" and "3.Execution Phase (Nov 14-Nov 28)" under "Milestone 4 — System Prototype Completed"; and "THU, NOV 20" with "Backend: payment integration (Stripe/PayPal)" and "3.Execution Phase (Nov 14-Nov 28)" under the same milestone. To the right is a "Card Table" module with an orange icon showing two cards. A note says: "Move cards across columns in a Kanban-like tool for process-oriented workflows." It includes a "Create a card table" button. At the bottom, a "Project Activity" section is visible.

This screenshot shows the "To-dos" list for the "EventFlow - Event Management System" project. The list is organized into two main sections: "1.Define Phase (Oct 17-Oct 31)" and "2.Planning Phase (Oct 31–Nov 14)".

- 1.Define Phase (Oct 17-Oct 31)**
 - 0/5 completed
 - Collect system requirements • Identify all stakeholders • Review scope (in...)
 - Confirm functional scope (Mon, Oct 20) Souravdeep s.
 - Finalize user stories (Wed, Oct 22) wangchen p.
 - Identify risks & constraints (Thu, Oct 23) Bassey E.
 - Review assumptions (Fri, Oct 24) Souravdeep s.
 - Define MVP scope (Tue, Oct 28) wangchen p.
 - Definition sign-off by team (Fri, Oct 31) Bassey E.
- 2.Planning Phase (Oct 31–Nov 14)**
 - 0/8 completed
 - Build project schedule • Assign roles & responsibilities • Create risk regi...
 - Create system architecture diagram (Sun, Nov 2) Souravdeep s.
 - Create database ERD (Tue, Nov 4)
 - Define cloud hosting plan (Wed, Nov 5) Souravdeep s.
 - Milestones + Schedule finalization (Thu, Nov 6) wangchen p.
 - Assign team roles & responsibilities (Fri, Nov 7) Souravdeep s.
 - Create risk mitigation strategies (Sat, Nov 8) Souravdeep s.
 - Prepare project plan document (Wed, Nov 12) Souravdeep s.
 - Planning Phase review + approval (Fri, Nov 14) wangchen p.

At the bottom of each list, there's a "Add a to-do" button.
